CURB CUT (driveway) ALTERATION PERMIT

Application is hereby made to _____ a driveway
abutting the property at _____

Before a permit is approved, the owner shall submit an application accompanied by a dimensional plan (drawn a scale) showing existing conditions (proposed and existing driveways, property lines, buildings and structures, hydrants, intersections, etc...).

Before work is started, the application and accompanying plans must first be approved. Work and materials must be in compliance to the Curb Cut Ordinance for the City of Pawtucket. Work must be completed within sixty (60) days of issuance of the permit. Any extensions must be approved. The materials used in the repair and replacement of sidewalks shall be the same as that which exists on the particular lot. The sidewalk must at all times be kept in a cleared safe and passable condition during construction of the curb cut driveway alteration.

Where applicable, at all times and until such time as work is completed, the contractor shall maintain all necessary barriers, lights and other safeguards for the prevention of accidents and protection of public and private property.

All driveway openings shall have a two (2) foot radius return at each end constructed as to form a ninety degree angle along the tangents or end of the straight curbing and shall be a minimum of six (6) inches in thickness and a minimum depth of eighteen (18) inches. All curb radius stones (returns) shall be granite or an approved equal.

I so hereby certify that I have read the above and fully understand what is required.
